Essay on Man.

A little girl wrote the following composition on men: "Men are what women marry. They drink and smoke and swear, but they don't go to church. Perhaps if they wore bonnets they could. They are more logical than women and also more zoological. Both men and women sprung from monkeys, but the women sprung farther than the men."—London Opinion.

Take One Pain Pill, then—Take it Easy.

To Head-Off a Headache

Nothing is Better than Dr. Miles' Anti-Pain Pills They Give Relief Without Bad After-Effects.

"It gives me great pleasure to offer a word of recommendation for Dr. Miles' Anti-Pain Pills, as there are thousands suffering unnecessarily from headache. I was afflicted intermittently for years with headache and after other remedies failed, I tried Dr. Miles' Anti-Pain Pills. For the past ten years I have carried them constantly with me, getting instant relief by using one or two on the approach of headache. They are also effective for neuralgia, giving immediate relief." THE TITANIC.

One Monday morning about one o'clock.

The great Titanic began to reel and rock.

The people began to scream and cry. Saying, "Oh, Lord, we have to die."

It was sad when the great ship went down.

Chorus: It was sad when the great ship went down.

It was sad when the great ship went down.

Husbands and wives and children lost their lives.

It was sad when the great ship went down.

When that ship left England it was bound for this shore.

The rich had declared they'd not ride with the poor.

So they put the poor below and they were first that had to go.

It was sad when the great ship went down.

When they were building they said what they would do.

They would build a ship the water couldn't break through.

God with a powerful hand showed the world it couldn't stand.

It was sad when the great ship went down.

When Paul was out sailing and men all around

God, who sits in Heaven, said not a man should drown.

If you will trust me I will save you all today.

It was sad when the great ship went down.

Those people on the sea a long ways from home.

With friends all around didn't know their time had come.

But death came riding and sixteen hundred had to die.

It was sad when the great ship went down.

You know it must have been awful, those people on the sea.

They say that they were singing, "Nearer My God, to Thee."

But they were homeward bound, sixteen hundred, they were drowned.

It was sad when the great ship went down.

THE FRIERSON DOWN-DRAFT HEATER

The only heater made burning soft coal and producing the same results as a base burner. It is the most economical—Saving from 1/3 to 1/2 the fuel. The cleanest, safest and most comfortable—the heating surface extending down to the bottom where wanted, and as comfortable to sit by as an open grate. Water kept boiling on top, notwithstanding it is a down-draft device. Keeps fire all night without attention. Write for illustrated circular, giving full description of this heater.
